INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Quakertown, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements, referred to above, present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Quakertown at December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

BOROUGH OF QUAKERTOWN

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-10 be presented to supplement the basic financial statements. The Borough of Quakertown has presented the Schedule of Funding Progress for the Pension Funds and the modified approach to reporting infrastructure assets that accounting principles generally accepted in the United States of America has determined is required to be part of the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Quakertown's financial statements as a whole. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with the basis of accounting described in the notes to the financial statements. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards we have also issued our report on August 4, 2017, on our consideration of the Borough of Quakertown's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Borough of Quakertown's internal control over financial reporting and compliance.

Respectfully submitted,

Hutchinson, Gillahan & Freeh, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
Required Supplementary Information (RSI)
For the Year Ended December 31, 2016

The discussion and analysis of the Borough of Quakertown's financial performance provides an overall review of the Borough's financial activities for the year ended December 31, 2016. The intent of this discussion and analysis is to look at the Borough's financial performance as a whole. The reader should also review the notes to the basic financial statements and financial statements to enhance their understanding of the Borough's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999.

FINANCIAL HIGHLIGHTS

The Borough's overall financial position, as reflected in total net assets, increased by \$4,281,631 including special and extraordinary items. The net assets increased in the governmental activities by \$806,941 and increased in the business-type activities and funds by \$3,474,690.

During the year, the Borough paid principal of \$505,000 resulting in ending outstanding debt as of December 31, 2016, of \$6,415,000.

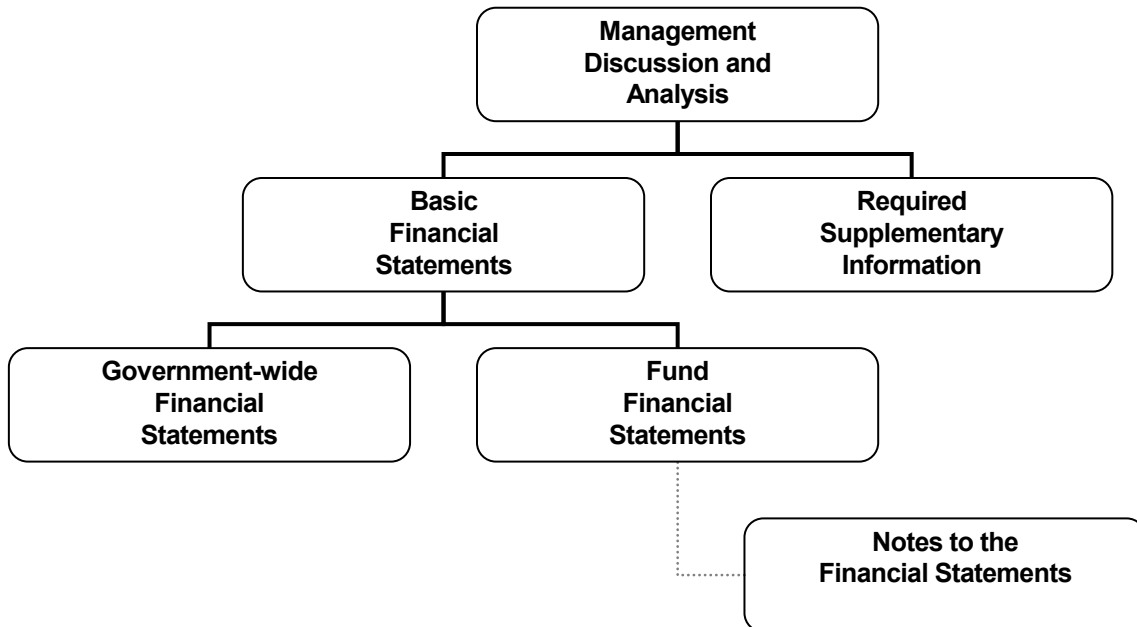

THE BOROUGH OF QUAKERTOWN
Management's Discussion and Analysis (MD&A)

The remaining statements are fund financial statements that focus on individual parts of the Borough's operations in more detail than the government-wide statements. The governmental funds statements tell how general Borough services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short- and long-term financial information about the activities that the Borough operates like a business. For this Borough, this is our Electric, Water, Sewer, Pool, and Park Funds. Fiduciary fund statements provide information about financial relationships where the Borough acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

THE BOROUGH OF QUAKERTOWN
Management's Discussion and Analysis (MD&A)

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the Borough as a whole. The statement of net position includes all assets and liabilities, both financial and capital, short-term and long-term. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The government-wide statements report the Borough's net position and how they have changed. Net position, the difference between the Borough's assets and liabilities are one way to measure the Borough's financial health or position.

Over time, increases or decreases in the Borough's net position are an indication of whether its financial health is improving or deteriorating, respectively, based upon the basis of accounting used.

To assess the overall health of the Borough, you need to consider additional non-financial factors, such as changes in the Borough's property tax base and changes in the utility rates and usage.

The government-wide financial statements of the Borough are divided into two categories:

Governmental Activities

All of the Borough's basic services are included here, such as General Government, Public Safety, Public Works and Parks. Property Taxes, Earned Income Taxes and Other Public Taxes finance most of these activities.

Business-Type Activities

The Borough provides electric, water and sewer utilities as well as a recreation pool and park to residents of the Borough. Fees received for these utilities and pool/park use fees cover the costs of operations.

The Borough's fund financial statements, which begin on page 13, provide detailed information about the most significant funds - not the Borough as a whole.

Fund Financial Statements includes:

Governmental Funds

Most of the Borough's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual basis of accounting. Under this method revenues are recognized when cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon after. The governmental fund statements provide a detailed short-term view of the Borough's operations and services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Borough's programs. The relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds is reconciled in the financial statements.

THE BOROUGH OF QUAKERTOWN
Management's Discussion and Analysis (MD&A)

Proprietary Funds

These funds are used to account for the Borough's activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the Borough charges customers for services it provides - these services are generally reported in proprietary funds. The electric, water, sewer, pool, and park funds, are the Borough's proprietary funds and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information such as cash flow.

Fiduciary Funds

The Borough is a fiduciary for the uniform and non-uniform pension funds as well as the escrow fund and the police health reimbursement arrangement fund. All of the Borough's activities are reported in separate statements or fiduciary net position on pages 21-22. These activities have been excluded from the Borough's financial statements because the Borough cannot use these assets to finance their operations.

FINANCIAL ANALYSIS OF THE BOROUGH AS A WHOLE

The Borough's total net position was \$60,690,416 at December 31, 2016.

Table A-1
Year Ended December 31, 2016 and 2015

THE BOROUGH OF QUAKERTOWN
Management's Discussion and Analysis (MD&A)

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Borough of Quakertown has always been and will continue to be the core of Upper Bucks County. Although the neighboring municipalities continue to expand in population, the Borough of Quakertown remains the center of activity and focus. Quakertown is a "full service community" that provides a comprehensive complement of public services to our residents. Not only do we provide these services, but they are provided in an efficient and cost effective way. Many of the services are subtle, but are not provided by any other municipalities in our larger region. The list includes: police services, water, sewer, electric, leaf collection, brush clipping and branch drop-off, street lights, traffic light maintenance, street maintenance, community swimming pool, and park and recreation facilities. We look forward to our continued focus of Economic Development and the recruitment of new businesses. Creating and retaining jobs for our Borough will help stabilize our local economy as well as assist with maintaining a stable tax rate. Our water, sewer and electric rates are competitive compared to others in our region. Our property tax rate of 1.625 mills equates to the average property owner paying approximately \$40 in real estate taxes per year for the services we provide to residents and non-residents.

The 2017 Budget reflects cautious optimism about the local economy. The 2017 Budget is reflective of the economic situation faced by everyone. It is the universal belief by each department that we must continue to deliver core municipal services foremost. The budget responds to the challenge of balancing the preservation of our infrastructure and maintaining the community's high standards of quality of life. Each Department was instructed to be cautious when developing the 2017 budget, and instructed to:

- Maintain services while adhering to a budget freeze in 2017;
- Postpone or delay, where possible, the hiring or replacement of positions that are vacant;
- Limit unnecessary travel and training;
- Continue to review and implement streamlining and cost savings measures;
- Reduce all non-emergency overtime;

This relative strength allows the Borough of Quakertown to continue to focus resources on building the infrastructure to deliver core services while addressing community priorities. Although there is limited revenue growth, the 2017 budget responds to the challenge of continuing to provide exceptional municipal services.

CONTACTING THE BOROUGH FINANCIAL MANAGEMENT

The Borough's financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the Borough's finances and to show Borough Council's accountability for the money it receives. If you have questions, please contact Borough Manager, Scott McElree, 35 North Third Street, Quakertown, PA 18951, phone 215.536.5001.

(1) Internal balances represent the amount owed to or from the two types of activities within the Primary Government. Since internal balances do not represent assets or liabilities of the total Primary Government, their balances are eliminated in the "total" column (GASB Statement No. 34, para. 58).

The Accompanying Notes are an integral part of these financial statements.

THE BOROUGH OF QUAKERTOWN
Reconciliation of the Governmental Funds Balance Sheet
To the Statement of Net Position
As of December 31, 2016

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS **\$ 2,728,209**

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$25,880,260 and the accumulated depreciation is \$3,548,282. 22,331,978

In the statement of activities, certain operating revenues are recognized when earned versus the revenues using the modified accrual basis of accounting in the fund statements that are recognized when the funds are available. As such, accounts receivable increased by this amount this year. 36,847

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Notes Payable	\$	-	
Accrued Interest on the Bonds		-	
Compensated Absences		(627,064)	
GASB 68 Liability		(2,591,616)	
Other Retirement Benefits		-	(3,218,680)

TOTAL NET POSITION - GOVERNMENTAL ACTIVITIES **\$ 21,878,354**

THE BOROUGH OF QUAKERTOWN
Reconciliation of the Governmental Funds
Statement of Revenues, Expenditures, and Changes in Fund Balance
To the Statement of Activities
For the Year Ended December 31, 2016

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ 959,672

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

	Depreciation Expense	\$ (341,781)		
	Asset Deletions	(563,155)		
	Capital Outlays	<u>945,872</u>		40,936

In the statement of activities, certain operating expenses--compensated absences and GASB 68 Pension Liabilities--are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used. (157,761)

In the statement of activities, certain operating revenues are recognized when earned versus the revenues using the modified accrual basis of accounting in the fund statements that are recognized when the funds are available. As such, accounts receivable decreased by this amount this year. (35,906)

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES **\$ 806,941**

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

Note 1 - Description of the Borough and Reporting Entity

The Borough of Quakertown, Pennsylvania (Borough) was incorporated in 1855, under the provisions of the Laws of the Commonwealth of Pennsylvania. The Borough operates under a council-manager form of government and provides the following services as authorized by its charter: public safety (police), streets, sanitation, culture-recreation, public improvements, planning and zoning and general administrative services. Other services include providing water, sewer and electricity.

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the Borough are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the Borough.

The Borough of Quakertown is a municipal Corporation governed by an elected council. As required by generally accepted accounting principles, these financial statements are to present the Borough of Quakertown (the primary government) and organizations for which the primary government is financially accountable. The Borough is financially accountable for an organization if the Borough appoints a voting majority of the organization's governing board and (1) the Borough is able to significantly influence the programs or services performed or provided by the organization; or (2) the Borough is legally entitled to or can otherwise access the organization's resources; the Borough is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the Borough is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the Borough in that the Borough approved the budget, the issuance of debt, or the levying of taxes. The Borough of Quakertown does not have any material component units.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the Borough have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced.

A. Basis of Presentation

The Borough's basic financial statements consist of government-wide statements, including a statement of net assets, a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the Borough as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the Borough that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the Borough at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Borough's governmental activities and for four business-type activities of the Borough. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program,

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Borough, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the Borough.

Fund Financial Statements During the year, the Borough segregates transactions related to certain government functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Borough at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

B. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Government funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-Exchange Transactions. Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the Borough receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are to be used for a specified purpose, and expenditure requirements, in which the Borough must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Borough on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

C. Fund Accounting

The Borough uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Borough's **major** governmental funds:

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

General Fund

The General Fund is the general operating fund of the Borough. Substantially all tax revenues, Federal and State aid (except aid restricted for use in Special Revenue Funds) and other operating revenues are accounted for in the General Fund. This Fund also accounts for expenditures and transfers as appropriated in the budget which provides for the Borough's day-to-day operations.

Proprietary Funds Proprietary funds focus on the determination of changes in net assets, financial position and cash flows and are classified as enterprise funds.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The Borough's **major** enterprise funds are:

Electric Fund This fund accounts for the financial transactions related to providing electricity to the residents of the Borough.

Water Fund This fund accounts for the financial transactions related to providing water services to the residents of the Borough.

Sewer Fund This fund accounts for the financial transactions related to providing waste water to the residents of the Borough.

The Borough applies Financial Accounting Standards Board (FASB) Statements and interpretations issued on or before November 30, 1989 to its proprietary funds, provided they do not conflict with or contradict GASB pronouncements.

Fiduciary Funds Fiduciary funds reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the Borough under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Borough's own programs. The Borough has three (3) trust funds, consisting of a Police Pension Fund, a Non-Uniform Pension Fund, and a Defined Compensation Plan Fund. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Borough has two (2) agency funds, consisting of an Escrow Fund and a Police Health Reimbursement Arrangement Fund.

D. Measurement Focus

Government-wide Financial Statements. The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the Borough are included on the statement of net assets.

Fund Financial Statements. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

E. Budgets and Budgetary Accounting

The Borough follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with the Borough Code and Borough procedures, the Borough Manager submits to the Council, with whom the legal level of budgetary control resides, a proposed budget for the fiscal year commencing the following January 1. The budget must be advertised and available for public inspection before adoption. The budget includes proposed expenditures and the means of financing them for the upcoming year, along with estimates for the current year. Departments for budgetary purposes are general government, public safety, public works, culture and recreation, and insurance, employee benefits and miscellaneous.
2. Public hearings are conducted to obtain taxpayer comment.
3. By December 31, the budget is approved by motion of the Council. Expenditures for the budget may not legally exceed appropriations and prior year fund balance reserves. This is done as a level of budgetary control.
4. All modifications, transfers and amendments must be approved by the Council.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund.
6. The legally adopted budgets of the Borough are for the General Fund.
7. The budgets are adopted on the modified accrual basis of accounting discussed above. (The basis of accounting for budget purposes is the same as for financial statement reporting purposes.)
8. The Council may authorize supplemental appropriations during the year.

Encumbrances

Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. The General Fund Budget is maintained on the modified accrual basis of accounting, expect that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the Borough's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. Any encumbrances are presented as a reservation for encumbrances on the balance sheet of the General Fund. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the Borough's legally adopted budget.

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

G. Assets, Liabilities and Net Assets

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Proprietary Fund type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

Investments

In accordance with GASB Statement 31, investments are stated at fair value, except:

- a) Non-participating interest earning investment contracts are recorded at amortized cost;
- b) Money market investments and participating interest earning investment contracts that mature within one year of acquisition are recorded at amortized cost; and,
- c) Investments held in 2a7-like pools (Pennsylvania Local Government Investment Trust, and the Pennsylvania Treasurer's Invest Program) are recorded at the pool's share price.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Real Estate Taxes

The total taxable assessed real estate valuation for the year ended 2016 is \$78,997,450 at a rate of 1.625 mills. Real estate taxes are levied on March 1 and are payable by June 30.

Real estate taxes paid by April 30 are subject to a 2% discount and after June 30 are subject to a 10% penalty. Delinquent real estate taxes are generally lienied by January 1 of the following year.

Fund Balance Classifications

GASB Statement No 54, effective for financial statements for periods beginning after June 14, 2010, established accounting and financial reporting standards for all governments that report governmental funds. The statement established criteria for classifying fund balances into the following specifically defined classifications:

- **Non-spendable** fund balance includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- **Restricted** fund balance includes amounts that are restricted externally by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

- **Committed** fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally. The Borough's highest level of decision making is the Borough Council.
- **Assigned** fund balance comprises amounts *intended* to be used by the government for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.
- **Unassigned** fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The Borough maintains a capitalization threshold of five thousand (\$5,000) dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land, certain land improvements, infrastructure and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives
Buildings and Improvements	20 - 50 years
Machinery and Equipment	5 - 20 years
Vehicles	10 - 30 years
Infrastructure	Modified Approach
Water Lines	30 - 50 years
Sewer Lines	50 - 90 years

Compensated Absences

The Borough reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the Borough will compensate the employees for the benefits through paid time off or some other means.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the Borough's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net assets.

Reclassification

Certain amounts have been reclassified to conform to the December 31, 2016, presentation of government-wide financial statements on the accrual basis of accounting versus the governmental fund financial statements on the modified accrual basis of accounting.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Borough or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Borough applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Inventory

Inventory type items for the Borough are recorded using the purchase method; that is, they are charged as an expense when purchased; therefore, there is no inventory shown on the Balance Sheet.

Note 3 – Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes a reconciliation between “fund balance-total governmental funds” and “net assets – governmental activities” as reported in the government-wide statement of net assets. One element of that reconciliation explains that “capital assets used in government activities are not financial resources and therefore are not reported as assets in governmental funds”. The cost of the capital assets net of depreciation totals \$22,331,978. Another element of the reconciliation explains that “long-term liabilities, including notes payable, are not due and payable in the current period and therefore are not reported in the funds”.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

The details of this \$3,218,680 difference are:

Compensated Absences	\$ 627,064
GASB 68 Pension Liability	<u>2,591,616</u>
Net adjustment to reduce "fund balance - total governmental funds" to arrive at "net assets - governmental activities"	<u>\$ 3,218,680</u>

B. Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities

Due to the difference in the measurement focus and basis of accounting used on the governmental fund statements and borough-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. Differences between the governmental funds statement of revenues, expenditures and changes in fund balance and the statement of activities fall into one of two broad categories. The amounts shown in the columns on the following page represent:

- a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities.
- b) Capital related differences include: (1) the differences between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities; and, (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation expense on those items as recorded in the statement of activities.
- c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

Note 4 - Cash

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Borough does not have a policy for custodial credit risk. As of December 31, 2016, \$12,135,736 of the Borough's bank balance of \$13,566,847 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ -
Collateralized with securities held by the pledging financial institution	-
Uninsured and collateral held by the pledging bank's trust department not in the Borough's name	12,135,736

Total Cash per Financial Statements	<u><u>\$ 9,204,211</u></u>

Restricted Cash

The cash balance includes \$343,686 held for pension benefits, \$314,368 held as utility escrow funds and \$150,408 held in the Police Health Reimbursement Arrangement Fund. The utility escrow funds are security deposits from renters in the Borough.

Note 5 - Investments

The permitted investments for Pennsylvania Boroughs are defined in the Borough Code as:

1. United States Treasury Bills;
2. Short-term obligations of the United States Government or its agencies or instrumentalities;
3. Deposits in savings accounts or time deposits or share accounts of institutions insured by the F.D.I.C.; and,
4. Obligations, participations or other instruments of any Federal Agency, instrumentality or United States government sponsored enterprise, including those issued or fully guaranteed as the principal and interest by Federal agencies, instrumentalities or United States government sponsored enterprises, if the debt obligations are rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.
5. Repurchase agreements with respect to United States Treasury bills or obligations, participations or other instruments of or guaranteed by the United States or any Federal agency, instrumentality or United States government sponsored enterprise.
6. Negotiable certificates of deposit or other evidences of deposit, with a remaining maturity of three years or less, issued by a nationally or State-chartered bank, a Federal or State savings and loan association or a State-licensed branch of a foreign bank. For obligations with a maturity of one year or less, the debt obligations of the issuing institution or its parent must be rated in the top short-term rating category by at least two nationally recognized statistical ratings organizations. For obligations with a maturity in excess of one year, the senior debt obligations of the issuing institution or its parent must be rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

7. Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers' acceptances, if the bankers' acceptances do not exceed 180 days maturity and the accepting bank is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
8. Commercial paper issued by corporations or other business entities organized in accordance with Federal or State law, with a maturity not to exceed 270 days, if the paper is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
9. Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933 and, if all of the following conditions are met:
 - The investments of the company are the authorized investments listed above.
 - The investment company is managed in accordance with 17 CFR 270.2a-7 (related to money market funds).
 - The investment company is rated in the highest category by a nationally recognized rating agency.
10. Savings or demand deposits placed in accordance with the following conditions:
 - The money is initially deposited and invested through a federally insured institution having a place of business in this Commonwealth, which is selected by the public corporation or municipal authority.
 - The selected institution arranges for the redeposit of the money in savings or demand deposits in one or more financial institutions insured by the Federal Deposit Insurance Corporation, or the account of the public corporation or municipal authority.
 - The full amount of principal and any accrued interest of each such deposit is insured by the Federal Deposit Insurance Corporation.
 - On the same date that the money is redeposited pursuant to above, the selected institution receives an amount of deposits from customers of other financial institutions equal to or greater than the amount of money initially invested through the selected institution by the public corporation or municipal authority.

Pension Trust Funds – The uniform and non-uniformed pension funds may invest funds outside of those investments permitted for Pennsylvania Boroughs.

As of December 31, 2016, the Borough had the following investments:

Investments	Maturities	Fair Value
PA Local Government Investment Trust		\$ 121,764
Federal Institutional Government Obligation Fund		282,501
Common Stocks		7,418,639
Corporate Bonds	1 mo. - 9 yrs. 11 mos.	1,883,548
U.S. Government Agency Bonds	11 mos. - 9 yrs. 11 mos.	1,922,298
Certificates of Deposit	7 mos. - 3 yrs. 10 mos.	4,824,120
Mutual Funds		4,687,466
TOTAL		\$ 21,140,336

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

Fair Value Reporting

The Borough categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant observable inputs. All investments of the Borough are categorized as Level 1 inputs.

Interest Rate Risk

The Borough does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The Borough has no investment policy that would limit its investment choices to certain credit ratings. As of December 31, 2016, the Borough's significant investments were rated as:

Investments	Standard & Poor's
PLGIT	AAA
Common Stocks	Not Available
Corporate Bonds	Not Available
Federal Home Loan Bank Bonds	AAA
Federal Home Loan Mortgage Corp. Bonds	AAA
FNMA Bonds	AAA
Federal Agricultural Mortgage Co.	AAA
American Funds Europacific Growth Fund	Not Available
Vanguard Total International ETF	Not Available
Misc. Mutual Funds	AL/FL

Concentration of Credit Risk

The Borough places no limit on the amount the Borough may invest in any one issuer. More than 5% of the Borough's investments are in certificates of deposit at TD Bank and Penn Community Bank. These certificates of deposit represent 10.03% and 9.62%, respectively, of the Borough's investments. More than 5% of the Trust and Agency Funds' investments are in the American Funds Europacific Growth Fund and the Vanguard Total International ETF. These investments are 5.97% and 6.15%, respectively of the Trust and Agency Funds investments. The Proprietary Funds' investments are in certificates of deposit at TD Bank and Penn Community Bank. These certificates of deposit represent 51.04% and 48.96%, respectively of the Proprietary Funds' investments.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Borough will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The Borough has no investments subject to custodial credit risk.

Note 10 - Pension Plan Obligations

Non-Uniformed Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements for the Pension Plan for Non-Uniformed Employees of the Borough of Quakertown are prepared using an accrual basis of accounting. Plan member contributions are recognized in the period in which they are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments:

All investments of the pension trust fund are reported by the custodian at fair value. Investments that do not have an established market value are reported at estimated fair value.

Plan Description and Membership Information

Plan Description

The Pension Plan for Non-Uniformed Employees of the Borough of Quakertown is a contributory, single-employer retirement plan that covers non-uniformed employees of the Borough. The plan provides retirement, termination, disability and death benefits to plan members and their beneficiaries.

Plan Membership:

As of January 1, 2016, the beginning of the plan year and December 31, 2016, the plan year-end, plan membership consisted of the following:

	1/1/2016	12/31/2016
Retirees and Beneficiaries Receiving Benefits (including DROP members)	30	31
Terminated Members entitled to Benefits but not yet receiving them	18	18
Active Plan Members	30	29
TOTAL	78	78

Employees who are members in the plan are required to contribute 1.0% of their salaries to the plan. Interest is credited to each member's account each year at 5% per year. Administrative costs and investment costs of the plan are financed through an addition to the Actuarially Determined Employer Contribution.

The plan's funding policy provides for periodic employer contributions, determined actuarially, that are sufficient to accumulate assets to pay benefits when due. The Borough is required to contribute each year the Minimum Municipal Obligation (MMO), which is determined the previous year based on the most recent actuarial valuation. The Borough may allocated General Municipal Pension System State Aid toward the Minimum Municipal Obligation; however, the Borough is ultimately responsible for funding the MMO.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

Net Pension Liability

The net pension liability was measured as of December 31, 2016, and the total pension liability was determined as of December 31, 2016. The components of the pension expense and changes in the pension liability were determined by rolling forward the liabilities from the January 1, 2015 actuarial valuation through the measurement date and adjusting for experience gains and losses at December 31, 2016. No significant events or changes in assumptions occurred between the valuation date and the fiscal year-end.

Actuarial Assumptions

The total pension liability as of January 1, 2015 and December 31, 2016 were determined using the following economic assumptions, applied to all periods included in the measurement.

Inflation: 2.0%

Salary Increases: 5.0%

Investment Return: 7.5% (including inflation)

Mortality rates were based on the RP-2000 Mortality tables for males and females.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class is summarized in the following table. This information was provided by the plan's investment consultants, Univest.

Determination of Long-Term Expected Rate of Return

Asset Class	Target Allocation	Long-Term Expected Rate of Return	Contribution to Rate of Return
Domestic Equity-Large Cap	41.60%	5.35%	2.23%
Domestic Equity-Mid Cap	5.20%	5.75%	0.30%
Domestic Equity-Small Cap	5.20%	6.20%	0.32%
International Equity	13.00%	5.75%	0.75%
Fixed Income	35.00%	3.00%	1.05%
TOTAL	100.00%		4.65%
Inflation			2.00%
Long-Term Expected Rate of Return			6.65%

Discount Rate:

The discount rate used to measure the total pension liability was 7.5%. The pension plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The employer's

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

funding policy requires the full funding of the entry age normal cost plus plan expenses, as well as an amortization of the unfunded liability.

Deferred Retirement Option Program (DROP)

This plan does not offer a Deferred Retirement Option Program (DROP).

Changes in the Net Pension Liability

Police Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements for the Borough of Quakertown Police Pension Plan are prepared using an accrual basis of accounting. Plan member contributions are recognized in the period in which they are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan

Methods Used to Value Investments:

All investments of the pension trust fund are reported by the custodian at fair value. Investments that do not have an established market value are reported at estimated fair value.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

Plan Description and Membership Information

Plan Description:

The Borough of Quakertown Police Pension Plan is a contributory, single-employer retirement plan that covers all full-time uniformed police officers of the borough. The plan provides retirement, termination, disability and death benefits to plan members and their beneficiaries, pursuant to Act 600 of 1956, as amended.

Plan Membership:

As of January 1, 2016, the beginning of the plan year and December 31, 2016, the plan year end, plan membership consisted of the following:

	1/1/2016	12/31/2016
Retirees and Beneficiaries Receiving Benefits (including DROP members)	11	12
Terminated Members entitled to Benefits but not yet receiving them	3	2
Active Plan Members	18	18
TOTAL	32	32

Deferred Retirement Option Program (DROP)

The plan offers a Deferred Retirement Option Program (DROP) to officers who are eligible to retire. The maximum DROP period is 60 months.

Officers who are members in the plan are required to contribute 1.0% of their salaries to the plan. Interest is credited to each member's account each year at 5.0%. Administrative costs and investment costs of the plan are financed through an addition to the Actuarially Determined Employer Contribution.

The plan's funding policy provides for periodic employer contributions, determined actuarially, that are sufficient to accumulate assets to pay benefits when due. The Borough is required to contribute each year the Minimum Municipal Obligation (MMO), which is determined the previous year based on the most recent actuarial valuation. The Borough may allocate General Municipal Pension System State Aid toward the Minimum Municipal Obligation; however, the Borough is ultimately responsible for funding the MMO.

Net Pension Liability

The net pension liability was measured as of December 31, 2016, and the total pension liability was determined as of December 31, 2016. The components of the pension expense and changes in the pension liability were determined by rolling forward the liabilities from the January 1, 2015 actuarial valuation through the measurement date and adjusting for experience gains and losses at December 31, 2016. No significant events or changes in assumptions occurred between the valuation date and the fiscal year end.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

Actuarial Assumptions

The total pension liability as of January 1, 2015 and December 31, 2016 were determined using the following economic assumptions, applied to all periods included in the measurement.

Inflation: 3.0%

Salary Increases: 5.0%

Investment Return: 7.5% (including inflation)

Mortality rates were based on the RP-2000 Mortality tables for males and females.

The long term-expected rate of return on pension plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class is summarized in the following table. This information was provided by the plan's investment consultants, Univest.

Determination of Long-Term Expected Rate of Return

Asset Class	Target Allocation	Long-Term Expected Rate of Return	Contribution to Rate of Return
Domestic Equity-Large Cap	41.60%	5.35%	2.23%
Domestic Equity-Mid Cap	5.20%	5.75%	0.30%
Domestic Equity-Small Cap	5.20%	6.20%	0.32%
International Equity	13.00%	5.75%	0.75%
Fixed Income	35.00%	3.00%	1.05%
TOTAL	100.00%		4.65%
Inflation			3.00%
Long-Term Expected Rate of Return			7.65%

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. The pension plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The employer's funding policy requires the full funding of the entry age normal cost plus plan expenses, as well as an amortization of the unfunded liability.

Deferred Retirement Option Program (DROP)

The plan offers a Deferred Retirement Option Program (DROP) to officers who are eligible to retire. The maximum DROP period is 60 months.

Determination of Actuarially Determined Employer Contribution (ADEC)

The ADEC is equal to the Minimum Municipal Obligation determined for the fiscal year, based on the most recent actuarial valuation report. The Minimum Municipal Obligation for 2016 was determined as follows:

Based on Actuarial Valuation as of:	1/1/2013
Normal Cost Percentage	9.1%
Administrative Expense Percentage	1.5%
Estimated W-2 Payroll for Previous Year	\$ 1,804,211
Normal Cost	164,183
Administrative Expense	27,063
Annual Cost	191,246
Amortization Payment	372,598
Total Financial Requirement	563,844
Member Contributions Anticipated	(18,042)
Funding Adjustment	-
Minimum Municipal Obligation	<u><u>\$ 545,802</u></u>

The funding of the Minimum Municipal Obligation is shown below:

Municipal Contributions:	
State Aid Portion	\$ 157,487
Local Portion	388,315
Total Municipal Contributions	<u><u>\$ 545,802</u></u>

Deferred Retirement Option Plan

On November 29, 2006, the Borough adopted a Deferred Retirement Option Program (DROP) for Borough police officers.

Under the plan an active participant who has satisfied the eligibility requirements for normal retirement may elect to participate in the DROP plan, defer receipt of his normal retirement benefit, and continue employment with the Borough by filing a written application with the Borough. Participation in the DROP shall be for a period of net less than 12 months or more than 60 months.

Prior to participation in the DROP plan, an eligible participant must:

- a) Identify a binding and irrevocable resignation date from employment from the borough that also disclosed the date on which employee will begin participation in the DROP plan.
- b) Execute an irrevocable written election to participate in the DROP plan.
- c) Complete all other required documents requested by the Pension Committee.

Effective with the participant's date of participation in the DROP plan, the participant's normal retirement benefit under the Plan, effective date of participation in the DROP plan, and effective date of termination of participation in the DROP plan shall be fixed.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

The participant's normal retirement benefit shall be calculated as of his effective date of participation in the DROP plan. The participant's normal retirement may be increased by cost-of-living increases.

If a DROP plan participant becomes eligible for a disability pension benefit and terminates employment, the monthly normal retirement benefit of the DROP plan participant shall cease.

During the period of the DROP plan, the participant's monthly normal retirement benefit shall be credited to his DROP account on the first day of each month. Interest shall be credited on the balance in the DROP account at the rate of 1% per annum. The monthly normal retirement benefit credited to the DROP account during the month of the participant's death or termination of the DROP, if earlier, shall be a fraction of the final monthly normal retirement benefit credited to the DROP account pro-rated for the month.

A participant may not draw from nor access his DROP account during the period of participation in the DROP plan.

Upon termination from the DROP plan, the participant shall be separated from employment with the Borough. The participant shall receive distribution of the balance in his DROP account in a lump sum within 30 days following the participant's separation from employment with the Borough. The normal retirement benefit shall commence to the participant.

Upon the death of a participant during his participation in the DROP plan, the participant's named beneficiary shall be entitled to payment of the balance in the participant's account in a lump sum.

401(a) Pension Plan

All employees of the Borough hired after January 1, 2008, are ineligible for the Borough's Non-Uniformed Defined Benefit Pension Plan. The Borough has started a new 401(a) plan known as the Borough of Quakertown 401(a) Plan. The plan provides retirement benefits for the participants. This plan is in accordance with Internal Revenue Code Section 401(a). This plan provides for employer and employee contribution at the election of the Borough. For 2016, the Borough elected to require both employee and employer contributions. In 2016, contributions totaling \$80,156 were contributed to the plan by the Borough and Borough employees.

All contributions made to the plan, all property and rights purchased with those amounts, and all income attributable to such amounts, are solely the property of and rights of the participants. Participant's rights created under the plan are equivalent and in an amount equal to the market value of the participant's account maintained for each participant.

Deferred Compensation Plan

The Borough has adopted the Deferred Compensation Plan for voluntary participation of eligible municipal employees. The plan is in accordance with Internal Revenue Code Section 457 and permits the employees to defer a portion of their current salary until future years. The deferred amounts are not available to employees until termination, retirement, death or unforeseeable emergency.

All compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to such amounts, are solely the property and rights of the participants. Participants' rights created under the plan are equivalent and in an amount equal to the fair market value of the deferred account maintained with respect to each participant.

THE BOROUGH OF QUAKERTOWN
Notes To Financial Statements
Year Ended December 31, 2016

Note 11 – Deferred Inflows of Resources

The Borough received donations to the Main Street park renovation project in the amount of \$7,518. As of December 31, 2016, none of these funds have been expended. In addition, the Borough had a total of \$302,914 related to pension liabilities recorded as deferred inflows of resources. The amount related to pension liabilities recorded for deferred inflows of resources for governmental activities was \$155,058 and the amount related to pension liabilities recorded as deferred inflows of resources for business-type activities was \$147,856.

Note 12 – Deferred Outflows of Resources

The Borough had a total of \$766,960 related to pension liabilities recorded as deferred outflows of resources. The amount related to pension liabilities recorded for deferred outflows of resources recorded for governmental activities was \$578,530 and the amount related to pension liabilities recorded as deferred outflows for business-type activities was \$188,430.

Note 13 - Contingencies

Litigation

The Borough of Quakertown is currently not involved in any material litigation proceedings.

Note 14 – Risk Management

The Borough is subject to risk of loss from employee risks, property damage, personal injury, auto accidents, etc. The Borough lowers these risks through the purchase of commercial insurance. The Borough workers' compensation policy is a retrospectively rated policy. The final premium is based on actual payroll for the policy year and is determined by the insurance company. Any settlements received by the Borough or its employees did not exceed insurance coverage in the last three years.

Note 15 – Fund Balances

Note 16 – Subsequent Events

The subsequent events have been evaluated through August 4, 2017, which is the date of the financial statements were available to be issued.

Borough Council
The Borough of Quakertown
35 North Third Street
Quakertown, PA 18951

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Quakertown, Bucks County, PA, as of and for the year ended December 31, 2016, which collectively comprise the Borough of Quakertown's basic financial statements, and have issued our report thereon dated August 4, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Borough of Quakertown's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Quakertown's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Borough of Quakertown's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

BOROUGH COUNCIL

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Borough of Quakertown's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Borough of Quakertown in a separate letter dated August 4, 2017.

Purposes of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Borough's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Borough's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Hutchinson, Gillahan & Freeh, P.C.

THE BOROUGH OF QUAKERTOWN
Modified Approach to Reporting Infrastructure Assets
Required Supplemental Information
December 31, 2016

As permitted by GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments, the Borough has adopted the modified approach for reporting infrastructure assets. Under the modified approach, depreciation is not reported and certain preservation and maintenance costs are expenses.

The modified approach requires that the Borough:

- Maintain an asset management system that includes an up-to-date inventory of eligible infrastructure assets.
- Perform condition assessments of the eligible infrastructure assets and summarize the results using a measurement scale in order to document that the eligible infrastructure assets are being preserved approximately at (or above) the condition level established and disclosed by the government, and
- Estimate each fiscal year the annual amount needed to maintain and preserve the eligible infrastructure assets at the condition level established and disclosed by the government.

Condition Assessments

The Borough performs yearly condition assessments through its Maintenance Assessment Program. Under this program, visual inspections are conducted on the infrastructure asset. For each section of highway observed, various factors are assessed scores from 0 to 5 (0 = N/A, 1 = Failed, 2 = Poor, 3 = Fair, 4 = Good, 5 = Excellent) in order to determine the condition of the highways. Each factor within a component is weighted according to importance and each component is weighted according to importance to determine the overall condition of the System. The overall score is converted to a percentage measurement for reporting (1 = 20%, 2 = 40%, 3 = 60%, 4 = 80% and 5 = 100%).

Assessed Conditions

The Borough has adopted a minimum condition level of 80% for the System based on the condition assessments. Fiscal year 2010 was the first year that a condition assessment was conducted.

Fiscal Year	Condition Assessment (Minimum 80%)
2016	80%
2015	82%
2014	82%
2013	78%
2012	74%
2011	74%
2010	70%

THE BOROUGH OF QUAKERTOWN
Modified Approach to Reporting Infrastructure Assets
Required Supplemental Information
December 31, 2016

Estimated and Actual Costs for Maintenance

The table below provides a comparison between the Borough's estimate of maintenance expenditures required to maintain the System at or above the adopted condition level and the actual expenditures.

	Year 2016	Year 2015	Year 2014	Year 2013	Year 2012	Year 2011	Year 2010
Estimate	\$ 2,303,675	\$ 1,218,666	\$ 919,057	\$ 1,142,093	\$ 744,528	\$ 913,674	\$ 1,064,558
Actual	-	-	279,792	337,757	53,214	211,433	300,359

Factors Affecting Condition Assessments

The Borough continues to develop its methods for determining such estimates. As additional experience is acquired in the estimation and reporting processes, the Borough hopes to achieve a greater correlation between the estimated maintenance expenditures needed to maintain the System at or above the adopted condition levels and the condition level of the System. In comparing actual expenditures to estimated expenditures, factors such as increases in traffic, legislative mandates, budgetary constraints, and environmental effects (rainfall, drought, hurricane, freeze thaw, etc.) should be considered as they may have a major impact on needed funds and the condition of system roads.
