CEDAR GROVE PARK

The renewed Cedar Grove Park will feature many updated and exciting components to please residents of all ages and abilities. The Parks and Recreation Department is thrilled to announce the inclusion of a new playground that will replace the current playground equipment. The new playground equipment will showcase a 5-12 year and 2-5 year old play structures, a swing bay with an ADA swing, a manipulative play panel section, and poured-in-place rubberized surfacing that is wheelchair accessible. The poured-in-place surfacing offers additional benefits of consistent shock absorbency, low maintenance costs, and ease of cleanliness procedures.

Beyond the exciting new playground equipment, the current stoned trail will be paved to allow bicycles, strollers, and wheelchairs to traverse the trail with ease. But that's not all-the rejuvenation of the park does not stop at the trail. The basketball courts will be reoriented vertically and updated to recapture the original state of the courts. The enhancements to Cedar Grove Park extend beyond the physical. The improvements to Cedar Grove Park encompass a range of elements designed to enhance the overall experience for the community. Parking areas, thoughtfully equipped with ADA-compliant spaces, will make arriving at the park a breeze for anyone. Additionally, a pavilion will provide a gathering spot, a rain garden will contribute to the Borough's sustainable practices, and the addition of security cameras and lighting will ensure the safety of all residents and visitors.

be a part of our park's comeback story!

Any donation large or small is greatly appreciated! Donations over \$200 will receive the same benefits as the sponsorship-level program.

Leaf Program

\$110

Branch out with the Parks and Recreation Department by purchasing a leaf for our donor tree, which will find a permanent home at Cedar Grove Park! Each leaf can be customized with your name or a heartfelt dedication to a loved one. Your contribution not only leaves an everlasting impression on our community but also helps us grow and flourish like the tree itself.
